Doug has over 25 years of architectural design and code research experience. A member of the OAC team since 2002, he provides details and code compliance research for the building enclosure practice. Doug is a code research expert, maintaining an in-depth understanding of the International Building Codes.

Doug previously worked as a facility designer for Children's Hospital Medical Center, as an architect for a premier design firm in Seattle, and as a plan reviewer for Unincorporated King County Department of Development and Environmental Services. His background includes a variety of prestigious medical and commercial projects.

Practice Areas
